ROBLOX has come a long way from the clunky, blocky characters and difficult user interface of its past and now serves as a global gaming and game development and programming platform, with hundreds of thousands of games available from dedicated, young creators. While ROBLOX itself is free-to-play, and many games don't require players to use real-world currency or the in-game ROBUX, some games include purchasable items, add-ons, and other microtransactions like game passes. For players who don't want to spend real money on such microtransactions, there is still so much great free content available.

You can also earn ROBUX, but this is much more challenging. There are a few options - you can create a game or sell clothing items in a group. Creating an entire game in ROBLOX does take a lot of efforts - you will need to implement in-game purchases, which players can choose to purchase using ROBUX, and you will then earn a percentage. You can also make your game a pay to play game, charging people to play it.
