ROBLOX, the kids' gaming company that's getting set to go public, released an updated prospectus on Thursday with restated financials because of a "material weakness" in its reporting. Revenue for the first three quarters of 2020 was higher than previously reported, while its net loss was lower.

Over the past year, ROBLOX has reached more than one million students worldwide through its education initiatives including camps, coding challenges, and school curriculum resources. In March 2020, ROBLOX released educational tools through the Teaching Remotely Initiative to aid in remote teaching and learning. In June 2020, ROBLOX launched its semi-annual coding challenge Build It, Play It, (formerly known as the Creator Challenge), which was the company 's most successful event to date with over 7 million game visits and more than 210,000 games published. With today 's announcement, the company continues to deliver resources to students and teachers designed to complement continued remote learning or hybrid learning models this fall.

Another reason the website can be considered unsafe is that it doesn 't offer any details of the site owner. In addition, it is a fairly new website and carries a .xyz 's domain, which is common among many scam websites. And while you may still manage to get some free ROBUX at the end, it is better that you stay away from such websites as there is always a possibility of getting some malware or viruses injected into your system by following the untrusted links.
